50X1-HUM

1. A munitions factory, belonging to category "B" war-plants, is under construction at Sajóbáony (J88). It is similar to the munitions plants at Jászberény (J11) and at Felnémet (J56).* These three factories are to produce live and tracer ammunition for artillery.
 - a. The plant at Sajóbáony will employ about 1,200 workers.
 - b. The main building of the factory has already been completed. It is a 5-story reinforced-concrete structure with a concrete roof, built into the side of a hill which is covered with vineyards.
2. The munitions factory at Jobbágyi (J05) is situated along the Hatvan-Salgótarján railway line.
 - a. The Jobbágyi plant employs 3,500 workers, who are divided into three shifts. It produces approximately 200 tons of artillery ammunition per day.
 - b. The factory is a subterranean structure and is located on the western slope of the hill marked with height point 510. Three entrances lead into the plant.
